Lumin Community is a **Smart Software** suite designed to complement life in modern retirement villages

Wave goodbye to the drudgery of traditional communications and bring incredible experiences that delight residents to the forefront of your community.

[Let's Chat](#)

Are you ready for your village to become more **Vibrant and Connected?**

Lumin Community bridges the gap between village staff and residents using intelligent cloud based software and beautifully designed mobile device apps. It's a deeply connected ecosystem that facilitates faster, more transparent and richer communications within your community.

Reduce the back-and-forth, advertise services and discover excursions, streamline meal ordering and menu management, promote recreational opportunities and give residents and staff the freedom to engage directly with one another at exactly the right time.

Here's how Lumin Community can help your village to **Thrive and Grow**

Better Communications

Residents know exactly what is happening and available to them at the perfect moment.

Easier Management

Staff save countless hours per week on admin and organisation of common management tasks.

Happier People

Everyday jobs become easier and residents get to enjoy the best your village has to offer.

How Lumin Community works...

With nothing to install Lumin Community makes the path to better village living a breeze.

STEP 1

Activate your Account

We help you to configure Community Manager with your village information.

STEP 2

Resident Onboarding

Residents can then add the free mobile app to their device (or buy the home hub).

STEP 3

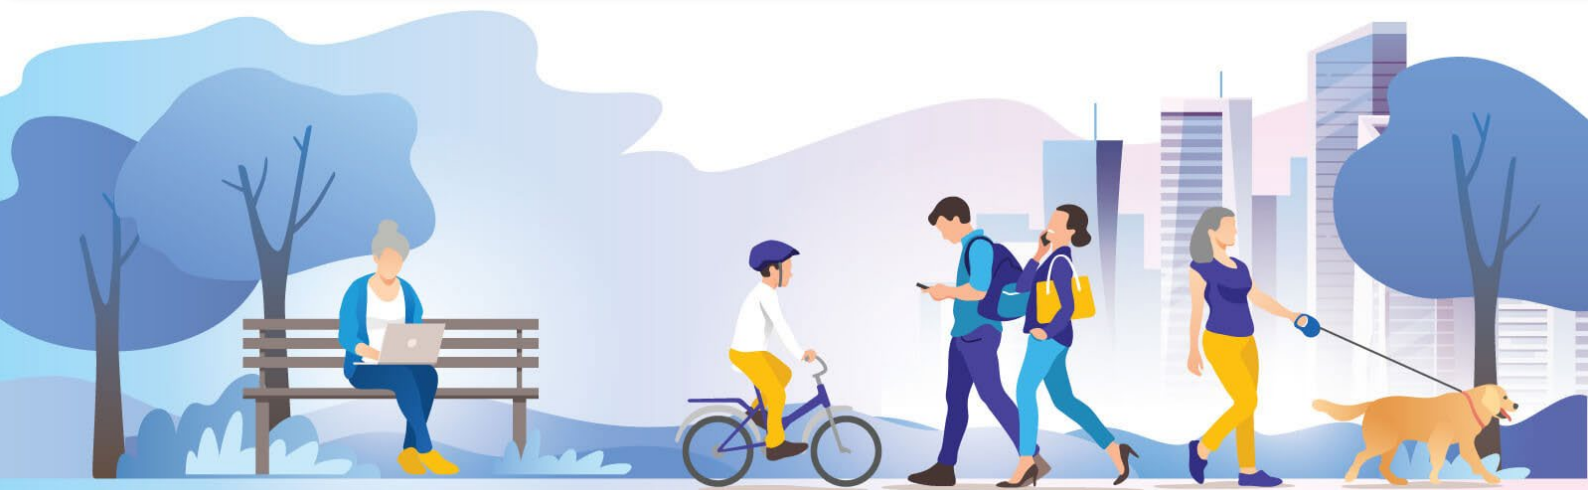

Enjoy the Rewards

Communication between village residents and staff becomes simple, easy and engaging

Transform your village community into a lively and engaged network of happy humans

To discover all the amazing features and benefits that Lumin Community can bring to your retirement village contact us to arrange a free demonstration.

Get in Touch

More Community, Less Management

Software that streamlines village workflows and strengthens connections with your residents.

Meet Community Manager

Create Incredible Experiences

Lumin community makes residents happier and administration easier for your team.

Connect

Everything is communicated directly with residents via the concierge app and personal calendar.

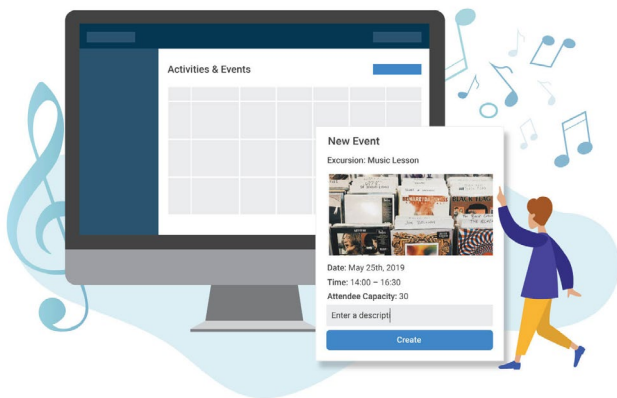

Manage

Handle all of your events, activities, bookings, community messages and meals, through a unified online portal.

Enjoy seamless engagement

- Send news and announcements to groups or the entire community.
- Have one-to-one conversations with individual residents.
- Poll residents and collect feedback on village services for continual improvement.
- Communicate on a personal level — make in-app video calls to anyone.

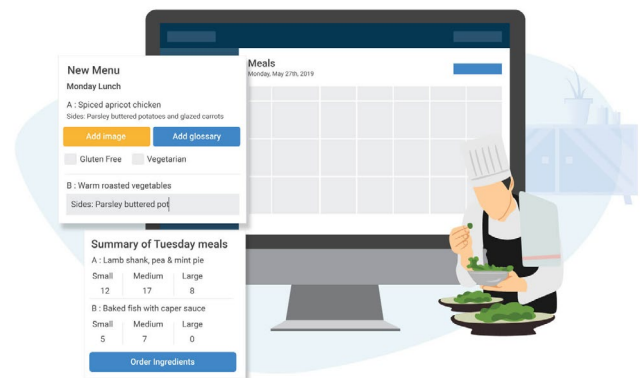

Put **events and activities** on autopilot

- Simpler event admin, without paper or spreadsheets.
- Promote enticing cultural and social excursions with images, descriptions and dates.
- Limit places. Collect RSVPs. Track attendance.
- Create and share photo galleries of events.

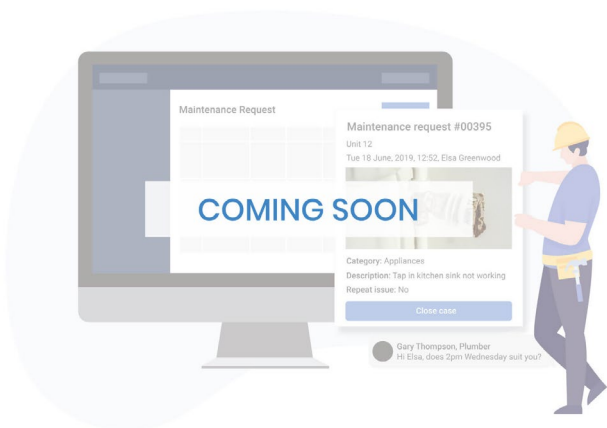

Focus on the **food**

- Design seasonal menus with different meal choices, then save and reschedule them on demand.
- Your dashboard displays exactly what (and how much) is on order, making prep a breeze.
- Buy accurate quantities of fresh produce and reduce waste.
- No paper forms and manual entry reduces errors and saves kitchen staff time.

Get your **maintenance** under control

- Receive notifications about issues, as soon as they arise.
- View and manage everything that needs to be done via the management portal.
- Request extra information or photos from residents via the mobile app.
- Maintain oversight of what's happening and stay on top of important jobs.
- Automatically send updates when you alter a job status.
- Collect feedback about the quality of work that's been conducted
